## **Children's Program Testing:**

Both CP Rochester and Happiness House are committed to providing a quality education program during the COVID-19 Pandemic. CP Rochester and Happiness House Children's Programs are not Medical Facilities. We do not have the capability of testing students or individuals for COVID-19. If we suspect a case of COVID-19 from a student or staff, we follow our protocol for a Suspected Case or Confirmed Case of COVID -19 and provide local test sites for the student or staff member to utilize so they can obtain proper testing. If using a test site run by New York State, there is not a charge for the Diagnostic test.

### **Monroe County Test Site: (No charge for the test to be done at this site you do need an appointment)**

Monroe Community College 888-364-3065

**Private Test Sites in Monroe/Ontario County:** (there may be a charge at these sites or insurance may not cover the test)

Local Urgent Care Centers

Some local Pharmacies

Some Medical Practices

Finger Lakes Community Health: 315-781-8448

Jordan Health: 585-396-0222

Mosaic Health: 585-554-4400

**Diagnostic testing:** Diagnostic tests check samples from your respiratory system (such as swabs of the inside of the nose) to tell you if you currently have an infection with SARS-CoV-2, the virus that causes COVID-19. Diagnostic testing is used to diagnose COVID-19

**Antibody blood test:** Antibody blood tests, also called serologic tests. Antibody tests check your blood (serum) for antibodies that would show if you have had a previous infection. Antibodies are proteins that help fight off germs. Antibody testing is **not used** to diagnose COVID-19. A serologic test may not be able to show if you have a current infection, because it can take 1 to 3 weeks to make antibodies after symptoms occur.
