At 6 months old Dante Cimino was diagnosed with schizencephaly, a rare birth defect that causes clefts in the cerebral hemispheres of the brain. After genetic testing, he was also diagnosed with HHT - another rare disorder in which the blood vessels do not form properly. As a result, he suffered a stroke in-utero. Not knowing the extent of the disease, his parents, Joe and Julie started extensive therapy immediately.

As Dante approached his preschool years, the family knew CP Rochester would be a perfect fit. After two years in the PreK program, Dante has developed amazing skills! He is riding a bike, climbing, jumping, and doing many independent tasks. Joe and Julie credit the teachers and therapists at CP Rochester for these amazing accomplishments. “He has grown over the years in ways we did not know were possible. Without their fierce determination we would not be where we are today,” said the Ciminos.

Dante is not only the face of our 2021 Annual Campaign, but he and the entire Cimino Family will be at our inaugural Honoring Heroes Gala and Auction.
As an essential service, our 200 frontline workers support the community’s most vulnerable citizens who live in our residences and attend our preschool, clinic and day programs. Promoting distance learning, implementing telehealth services, conducting virtual agency events, and social media all played an integral part in our success during these past 20 months.

Since we operate in 20 locations in multiple counties, conducting virtual meetings and trainings has proven to be effective. With 700 employees and 7,100 individuals and families served by Ability Partners, Inc. (API) through CP Rochester, Happiness House and Rochester Rehabilitation, consistency in communications, perseverance and flexibility has resulted in a more viable, healthy environment for all.

We are strong and hopeful for brighter days ahead while keeping the safety and well-being of all at the forefront.
Eight community-centered groups came together for the 2021 Day of Caring to help out our agencies. Thank you Kodak (1), Butler Till (2), Geneva High School National Honor Society (3), Nixon Peabody (4), First American Equipment Finance (5), Care Stream (6), Paychex (7), and LeChase (8). Together, they maintained garden beds, refreshed picnic tables, mulched, removed dead trees, put in a fence, rebuilt a retaining wall, laid down new woodchips in our playgrounds, and repaired our outdoor classroom.

After homelessness and addiction, Susie Short (pictured above with her daughter) entered the Ventures PROS program in 2019 ready for a change.

“My life had been so chaotic and tumultuous,” Susie said, “But as things started to get worse, I gave it (PROS) a shot.”

Through group sessions and support from the staff, Susie began to understand herself on a different level, feel empowered and confident in new situations, start a job and then earn a promotion, and get her very own apartment.

“I’m self-sufficient for the first time in my entire life!” Susie said. “I feel at peace with who I am and how things are going for the first time ever.”

Graduating the PROS program in April 2021, she felt ready to be on her own and prepared to guide a very proud 17-year-old daughter as she grows older.

Since 2012, the Ventures PROS program is one of three in Monroe County that serve individuals who have mental health issues through roughly 90 classes/group sessions each week. Classes are currently either online or hybrid, and include topics such as managing depression, managing anxiety, communications, anger management, creative art skills and much more. Also offered are programs that address substance abuse and workforce development.

Charmaine Brothers, another student, started her journey with Ventures PROS in October 2019. She said prior to that she was at a standstill in her life, and the classes she has taken have helped her to move forward.

“My long-term goal is to get into school and complete a bachelor’s degree in psychology because I want to be a therapist for individuals, mainly kids, who have special needs,” Brothers said. “PROS has been great with giving me that motivation to complete those goals and get back to being myself.”

Brothers enjoys the program because the participants and advisers make her feel comfortable.

“Everybody is great and friendly, and no judgment, which is what I love the most about it,” she said. “Everybody comes from different walks of life. Everybody is welcoming and they make me feel welcome.”

Ventures PROS is nearing 150 participants. Individuals must be at least 18 years old to enroll in the classes and must have a mental health diagnosis. Participants can be referred to the program in a number of ways including through therapy, by primary doctors or social service organizations, and clients can self-refer.

Henry and Evie Murray joined the Hobart Statesmen and their opponent the St. Lawrence Saints on the field for the National Anthem and then to the 50 yard line for the coin toss on October 23, 2021.

The Statesmen beat the Saints 17 - 13 and raised over $2,600 for Ability Partners Foundation!

With COVID guidelines in place, the Statesmen visited Happiness House in Geneva. 35 players came and spent time with the classrooms through the front window. Virtual highfives were given, and a few demonstrations were shown to the students.

It was hard to tell who had more fun!
